

# WORKSHOP

with Ann Grösch

## Habitat Games: Understanding the Environment

Habitat Games© introduce us to the plants and animals in an ecosystem. In the course of the game, structures of a habitat and plant and animal communities are introduced. While creating the ecosystem we understand how interconnected life is. With ecosystems threatened worldwide, our own lives are at risk. We look at human impact, e.g.- CO 2 emissions.

We ask ourselves: Can we do it? Let's make Nuremberg and the planet green!

Ann Grösch offers a variety of topics and will find material that fits perfectly for your class. For more information and examples, please visit: [www.habitatgames.de](http://www.habitatgames.de)

Ann Grösch, B.A. (USA) is a certified translator and environmental educator.

5€ per student | at the DAI or your school | in English | Please email [programm@dai-nuernberg.de](mailto:programm@dai-nuernberg.de) for more information and booking!

**Grades 5  
and above**
